DETAILED ACTION

Claim Objections

1. Claims 2-14 are objected to because of the following informalities: The term "further" in line 1 of claims 2-14 is ambiguous. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Kronzer (US 6,200,668 B1).

Kronzer discloses a printable heat transfer material comprising a first layer, a second layer on the first layer, a fifth layer on the second layer, a third layer on the fifth layer, and a fourth layer on the third layer, wherein the fourth layer comprises a film forming binder and a powdered thermoplastic polymer, the second and the fifth layers are adapted to provide cold release properties (claim 8-10, 12 and 13). The first, the second and the fourth layers are described in Table A, col. 5, lines 41-63, col. 7, lines 21-53, Table I, Table II and Table IV. The first layer is equivalent to the claimed base layer, the second layer is equivalent to the claimed release layer, and the fourth layer is equivalent to the claimed image receptive layer.
